

REINHARDT UNIVERSITY SCHOOL OF NURSING
NUR 308 Nutrition, Health Promotion and Wellness
Spring 2024

Course Faculty

Name: Charla Peoples MSN, RN
Title: Assistant Professor of Nursing
Email: crp@reinhardt.edu
Office Phone: 770-720-5917
Cell Phone: 706-266-4144
Office hours: By appointment

Course Description

This course is a study of nutrition in health and altered health states during the life cycle as well as promotion of health, prevention of illness and factors that impact health status. Application of nutritional principles and analysis of diets in health and wellness as well as illness are emphasized. The role and benefit of nutritional support and therapy in the metabolic and pathophysiological changes associated with disease and wellness are investigated as applicable to the nursing process. Health behaviors of different cultures and age groups as well as relevant nursing research on nutrition, health promotion, and disease prevention are discussed.

Credit Hours

2 credit hours

Over 15 weeks, students will spend 100 minutes per week in lectures, class discussions, and examinations (25-30 hours for the semester). Instructional time includes a 3-hour final exam. Out of class work includes homework and preparation for exams and quizzes and is estimated at around 300 minutes per week.

Course Schedule

Class meets each Wednesday. from 10:00 AM until 12:00 PM.

Pre and Co-requisites

Pre-requisites: NUR 301, NUR 302, NUR 303, NUR 305, NUR 307

Co-requisites: NUR 304, NUR 401, NUR 402

Course Textbooks and Resources

Required:

Lutz, C. Mazur, E. & Litch, N. (2022). *Lutz's nutrition and diet therapy* (8th ed.). Philadelphia, PA: F.A. Davis. **(Required)**

Althoff, A., Cawley, M., Falk, S., Gearhart, M., Grace, L., Henry, N., Holman, H., Johnson, J., Lemon, T., Phillips, B., Roland, P., Williams, D. & Assessment Technologies Institute (Contributors). (2023). *Nutrition for nursing: Review module* (8th ed.). Assessment Technologies Institute.

2022 Nurse's Drug Handbook (21st ed.). Burlington, MA: Jones & Bartlett Learning. (Or latest edition provided with ATI subscription)

Resources

Information technology requirements can be found at: <http://www.reinhardt.edu/it/>. A PC or MAC laptop that has wireless connectivity and is in good working condition is required for class and for testing. Additional software requirements for this course include Microsoft Office (Word, PowerPoint), Acrobat Reader and Adobe Media Player or another computer media player capable of accessing the course videos.

Relationship between Course and Program Outcomes

Course outcomes, stated below, help the student achieve the outcomes of the BSN Program at Reinhardt University. Each course outcome is followed by numbers in parentheses to represent the program outcomes and student outcomes (listed as domains) to be met. Each course outcome is followed by Roman numerals in brackets to represent *The Essentials of Baccalaureate Education for Professional Nursing Practice* guidelines to be met (American Association of Colleges of Nursing [AACN], 2021).

Course Outcomes

Upon completion of this course, the learner will be able to:

1. Analyze definitions of health. (2, Domain II, IX)
2. Describe the relationship between nutrition and health. (2, Domain II, IX)
3. Compare the nutritional needs of individuals across the life span. (2, Domain II, IX)
4. Describe the role of clinical nutrition in meeting the health needs of individuals with acute and chronic conditions (2, Domain II, Domain III, VIII, IX)
5. Identify strategies for assessment, intervention, and application of health promotion across the lifespan and cultural diversity (2, Domain II, IX)

Program Goals of the Baccalaureate Program

1. Provide baccalaureate nursing education within a liberal arts framework with a focus on the art and science of nursing recognizing the need to address all human needs biologically, psychologically, socially/culturally, and spiritually as entry into practice and the basis for pursuing graduate education.
2. Graduate prepared BSN students who meet criteria for licensure and are able to enter practice and function as a generalist novice nurse.
3. Prepare graduates to be flexible and have the ability to adapt in the ever-changing healthcare landscape.
4. Prepare graduates to be leaders that can impact patient care, the healthcare environment, and the communities they serve.

Student Outcomes of the Baccalaureate Program

Reinhardt school of nursing BSN graduates will demonstrate the following characteristics and behaviors:

Domain I Communication

- Demonstrate caring therapeutic communication and collaboration grounded in theory and techniques to be utilized across the disciplines, with individuals, families, and communities including the use of verbal, written, informatics and technology.

Domain II Critical Thinking and Inquiry

- Infuse research, evidenced based information, safe quality therapeutic interventions throughout the process utilized for nursing practice – the nursing process.
- Utilize both critical thinking and clinical reasoning to determine prevention, treatment, education, and follow-up in caring for individuals and the community in the role of the professional nurse.
- Apply legal, organizational, management, leadership principles and techniques in the daily care of the individual in nursing practice.
- Demonstrate knowledge of quality improvement principles, state and federal regulatory agencies, accreditation agencies, economics, healthcare policy and reform.

Domain III Society and Culture

- Understand the role of the professional nurse in respecting culturally diverse populations and providing holistic care to these individuals
- Demonstration of theory and practice advocacy for vulnerable individuals, communities and populations
- Understand the legal and ethical rights to self-determination in regard to health.

Domain IV Values and Ethics

- Demonstrate self-assessment, accountability, responsibility for self in preparation for the role of the professional nurse.
- Understand legal responsibility for actions and inaction in the role of the professional nurse.
- Demonstrate ethical principles, reasoning, and problem solving in the role of the professional nurse. Self-Assess and evaluate growth personally, spiritually, and as a nursing professional based on moral and ethical principles, Christian principles of faith, and nursing principles.

The Essentials: Core Competencies for Professional Nursing Education

Domain 1: Knowledge for Nursing Practice

Domain 2: Person-Centered Care

Domain 3: Population Health

Domain 4: Scholarship for the Nursing Discipline

Domain 5: Quality and Safety

Domain 6: Interprofessional Partnerships

Domain 7: Systems-Based Practice

Domain 8: Informatics and Healthcare Technologies

Domain 9: Professionalism

Domain 10: Personal, Professional, and Leadership Development (AACN, 2021)

Methods of Instruction

This is a web enhanced course in which the instructor facilitates learning through classroom instruction, weekly assignments, classroom demonstrations, discussion, use of student text resources, and/or independent study. Expected assignments will be provided for each content module. Students are expected to access Canvas at least once each day during the course.

Required Course Evaluations

Evaluation of the course is required by the Reinhardt University School of Nursing (RUSON). These evaluations are implemented through an electronic format. Evaluation of the course, clinical site, and clinical faculty are useful (1) to implement quality improvement within the course, processes and policies; (2) to provide evidence required by our accrediting agencies and the State Board of Nursing. It is the student's obligation to provide professional, objective, helpful feedback useful for the purposes outlined, and conversely it is the RUSON's obligation to provide nursing knowledge and content at the appropriate level for the preparation of the generalist professional nurse, which includes NCLEX-RN preparation. It is the School of Nursing policy that final grades in the course cannot be posted by faculty to the registrar until the course evaluation has been completed by the student. For anyone who does not complete the course evaluation on time, a grade of Incomplete will be sent to the registrar. Faculty do not receive information from these course evaluations until after all grades have been posted to the registrar. Information from the evaluations for faculty perusal are sent in summary form. Students are not identified in any way on these faculty summaries. The program coordinator of Nursing provides faculty with a list of students not completing the course evaluations so that grades can be held.

Professionalism Policy

Professional behavior is expected in this course. Students are encouraged to review the Professionalism Policy and Rubric contained in the Student Handbook.

Attendance and Classroom Participation

It is expected that the student will demonstrate professional behavior by being present, prompt, awake, alert, prepared, as well as participate in each class, lab, simulation, or clinical experience.

Dress code

Students are expected to present themselves in a professional manner for all classes and activities. Dresses, skirts, and shorts must be an appropriate length. Students may not wear pajamas, tank tops, or shirts that reveal the abdomen to class.

Tardiness

Tardiness or early exit is disruptive to the class and not conducive to the learning environment. Late students may be required to wait to enter the classroom until a class break to avoid disruptions. Late students will not be admitted to class during an exam and the rules for absence will apply. If the student is tardy or absent, the student is responsible for any missed content and assignments. Any absence may require additional work to validate the student's understanding of the missed content. The faculty will counsel any student whenever classroom or clinical absences are affecting the grade. The program coordinator and the Dean of the RUCSONHS will be notified in writing by faculty of this situation.

Absence

RUCSONHS has approved three types of excused absences. These include:

- 1) University excused absence as approved by the Vice President of Academic Affairs,
- 2) An illness that requires visitation to a health care facility (a note documenting your visit is required from the healthcare provider).
- 3) Documented death of a family member.

All other absences will be considered unexcused unless prior arrangements are made and approved by the course coordinator/faculty. Because didactic/clinical contact hours must be met in nursing content to pass a course, participation in institutional activities must be arranged so they do not occur simultaneously with class, clinical, lab, or simulation activities.

Due to the rigor of nursing curriculum and the standard expectation of professional conduct, students are expected to make a concerted effort to attend every class meeting. Students who are absent from one class (whether excused or unexcused) will be required to meet with the program coordinator/faculty member. Students who are absent from more than one class will be required to meet with the program coordinator/faculty to outline an attendance plan for remaining classes and to determine if successful completion of the course is possible.

All absences, whether excused or unexcused, require that the student make up missed activities and/or assignments (if permitted to do so). The student is responsible for contacting the instructor prior to or after an absence to obtain the assignment for content information missed. The faculty will counsel the student whenever classroom absences affect the student's attainment of course outcomes.

Exceptions, if made, will be made at the discretion of the course faculty, clinical faculty, program coordinator and Dean. All communication and notification of absences/tardies to class, lab, simulation, or clinical must be made either by email or RU office phone to the course instructor, clinical faculty, or preceptor as applicable. Please see syllabus for designated email addresses. Texting is not permitted unless prior permission has been granted by the faculty. For example, a clinical instructor may give her clinical group permission to text to notify of a problem before clinical. Some clinical courses may require non-typical hours such as evening and/or weekend time slots. Participation is expected and required.

Conversations During Class

In order to provide the most optimal learning environment in the classroom, conversations during lecture should be kept to a minimum. When the private conversation becomes disruptive to the class or to the lecturing faculty, the participants will be instructed to leave the room. If a student is asked to leave more than once, that person will be sent to the program coordinator or dean for disciplinary action.

and B and the mastery exam 5 points will be deducted for each day the remediation is late, resulting in a 0 after 7 days. The student will receive an incomplete (I) course grade until the remediation for the mastery exam is complete.

Grading for Practice Exams A and B

- Completion of Practice Exam A and remediation- 100/A
- Completion of Practice Exam B and remediation- 100/A

Grading ATI Mastery Exam

- Level 2 or 3 with completed remediation- 100/A
- Level 1 with completed remediation- 83/B
- Level 0 with completed remediation- 75/C
- Students who retake the ATI Mastery exam and receive a level 2 or 3 on the retake exam will receive an additional 10 points.

Remediation Assignments for Practice and Content Mastery Exams:

- All students must complete the Focused Review Quiz in ATI
- Students will complete Active Learning Templates for Topics selected by the faculty. The number of active learning templates assigned will depend on the proficiency level achieved by the student.

<i>Level Achieved</i>	<i>Practice Exams A and B</i>	<i>Content Mastery Exam</i>
<i>Level 3</i>	Focused Review Quiz	No remediation necessary
<i>Level 2</i>	4 Active Learning Templates and Focused Review Quiz	4 Active Learning Templates and Focused Review Quiz
<i>Level 1</i>	6 Active Learning Templates and Focused Review Quiz	6 Active Learning Templates and Focused Review Quiz
<i><Level 1</i>	12 Active Learning Templates and Focused Review Quiz	12 Active Learning Templates and Focused Review Quiz

Course Assignments

Students are expected to perform individually. Individual students may transcribe notes for their own learning; it is not permissible to sell or otherwise distribute these notes. The distribution of any class materials is strictly prohibited.

Assigned Readings/Preparation

Students are expected to complete all assigned readings and homework assignments prior to coming to class, clinical, or lab. The student will be responsible for the didactic content discussed in the classroom. Clinical hours will be made up at the discretion of the course coordinator.

Online Activities

Students will need to be proficient in using computer and internet applications to access and complete course requirements. The faculty is not responsible for teaching the student basic computing skills and navigation of Learning Management system. The student is expected to log in to the Canvas course daily. It is important to look for any announcements and to monitor/participate in discussions as assigned. Eastern Standard Time in the United States is the required time zone for all course submissions.

Special Assignments

Discussion Forums

The student is expected to respond to five graded discussion forum assignments using Canvas. The evaluation rubric is posted in Canvas. Each Discussion Forum is worth 100 points.

Personal Health Promotion Plan

The student will complete a personal health promotion assessment and care plan considering the elements of nutrition, diet, exercise, stress management, spiritual assessment and any other components outlined by our textbooks for the individual health promotion plan that may apply to the student. The student should also incorporate information from the ATI Nurses Touch Wellness & Self Care Modules. This assessment and plan are ***due on or before Wednesday, April 3, 2024***. The student must validate to the professor that a personal health log was maintained but the components can be kept confidential by the student. This assignment is to encourage the student to be honest with themselves, practice the skills of self-assessment, and take steps to intervene or improve behaviors that affect their health status.

Submission of Course Work and Late Submissions

1. Each assignment provides specific details on how it is to be submitted, whether via the assignment drop box feature, discussion board, in person, group, or individual delivery to office or email. Assignments not submitted as directed will not receive credit.
2. Five points per day (including weekends) will be subtracted from a grade for any late assignment, discussion, or any course activity, whether online, in-class, or clinical. Assignments not submitted within seven days (including weekends) of due date will receive a zero (0).
3. Naming convention for all coursework submitted using Canvas
 - Save document with Course ID followed by a period, then the name of the assignment followed by a period, then your Last name and first initial.
 - Example: NUR312.syllabus.DoeJ

Evaluation and Grading

The work of the individual student will be evaluated according to the student learning outcomes and grading criteria associated with each assignment. Assignments must be on time, correct, complete, and pertinent. Grammar, spelling, writing style, and form are a part of the grade on each assignment. For courses that have a clinical component, both the classroom and clinical experience must be successfully passed.

<i>Reinhardt School of Nursing Grading Scale</i>	
92.5 – 100	A
82.5-92.4	B
74.5-82.4	C
64.5-74.4	D
Below 64.4	F

A final letter grade of “C” is required in all nursing courses.

Grade Allocation

Item	Percentage of Grade
Exam 1	13%
Exam 2	13%
Exam 3	13%
Exam 4	13%
Final Exam	17%
ATI Assessments	10%
Discussion Forums	7%
Personal Health Promotion Care Plan	7%
Homework and other assignments	7%

Examination Policy / Procedure

The concepts and content of the nursing curriculum reflect the areas in which proficiency is necessary for meeting program goals, student learning outcomes and success on the NCLEX-RN licensing exam. It is the policy of Reinhardt University School of Nursing that all final exams will be comprehensive or contain a comprehensive component, where appropriate. In addition, at least 70% of the course grade in each course during semesters 1 through 3 must be derived from proctored testing.

The student must have a weighted average of 75% on all exams (quizzes, sectional exams and final exam) in order to successfully complete the course. Papers, projects, discussions, etc. may not be used to pass the course.

Exam grades will be averaged first and then the other grades are added provided the student has at least a 75% exam average. *If a student does not have $\geq 75\%$ weighted average on all tests (quizzes, sectional exams, and final exam), the student fails the course regardless of other points earned in the course.*

Students **will** be randomly assigned seats for testing and should arrange themselves with ample space between them and the next person. **Students must bring a privacy screen for every exam. Failure to provide a privacy screen may result in an unexcused absence for the exam.** Students must be seated and ready to start the exam at the scheduled time. Late students will not be admitted to class during an exam and the rules for absence will apply.

Backpacks, purses, cell phones, additional pens and pencils, hats, jackets, and books will be placed in a designated area of the classroom prior to taking each exam. Eating is not allowed during the exam. Pencils and paper will be provided, if necessary. Testing may be performed on the student’s laptop computer, or an established PC in the computer lab. **With the exception of NUR 302 and the pre-clinical dosage calculation exams, students may not use separate calculators. There is a calculator available on the electronic testing platform. Testing is never permitted on a tablet or cell phone.** While testing, the proctoring instructor will not address questions. If scratch paper is allowed, the student will place their name on it and submit it to the faculty before leaving the room.

Allowing access to your answers or attempting to gain access to another’s answers is cheating. Cheating will result in disciplinary action, which may include a failing grade and/or dismissal from the school of nursing.

During electronic format exams, both written and verbal instructions will be provided to students. Exam timing may be preset in the testing system and students are to note and adhere to the allotted time. When exam time expires, further submission of answers is not allowed and unanswered questions will not receive credit. Attempting to access the exam outside the proctored classroom environment is considered academic misconduct and may result in dismissal from the school of nursing.

Distribution of testing materials is prohibited and may result in dismissal from the school of nursing.

After an exam, the instructor will complete a statistical analysis of the test. Grades will not be posted until the analysis is complete. Exam review will be at the discretion of the instructor. Students will not take notes during the review. Final exams are not available for review.

Exams missed for an excused absence may be made up within 5 school days after returning to campus at a time determined by the course faculty. The format for all make-up exams will be at the discretion of the faculty and may include essay, short answer, fill in the blank, and/or multiple-choice type questions that cover the same content areas from the missed exam. Exams missed due to unexcused absences may not be made up. In this case, the grade achieved by the student for the comprehensive final exam will also be entered for the missed exam.

When a student knows he/she will be absent from an exam, he/she must notify the course coordinator/faculty before the exam. The email or phone message time stamp should NOT indicate a time later than the start time of the exam. For any excused or unexcused absences on examination dates, the instructor of the course must be informed of the reason for missing the exam prior to the exam being delivered to the other students. For excused absences, the student is responsible for making arrangements with the instructor or professor of the course. For unexcused absences that have been reported, the weight of the exam will be added to the final exam. Unexcused absences on the final exam will result in 10% deduction to the exam grade. Failure to notify the instructor or professor of the course of your absence prior to the examination time, will result in a “zero” for the exam grade that cannot be made up. If in the judgment of the faculty there are circumstances that warrant allowing the student to make up the exam with the failure to notify the instructor of the absence before the exam, the resulting points will be 90% of the actual points and counted as such. Unannounced quizzes will not be made up because of an absence.

Course Schedule including tentative topic schedule and exam dates

308 Nutrition, Health Promotion and Wellness				Spring 2024
Week	Date	Content	Discussion Post Due	ATI Practice Assessment Due
1	1/10/24	Chapter 1 – Nutrition in Human Health Chapter 2 – Carbohydrates		
2	1/17/24	Chapter 3 – Fats Chapter 4 – Protein Chapter 5 – Energy Balance		
3	1/24/24	Chapter 6 – Vitamins Chapter 7 – Minerals Chapter 8 – Water	#1-Health Promotion	
4	1/31/24	EXAM 1 (Ch. 1-8)		
5	2/7/24	Chapter 9 – Digestion, Absorption, Metabolism, and Excretion Chapter 10 – Pregnancy and Lactation	#2-Stress	

6	2/14/24	Chapter 11 – Infancy, Childhood, and Adolescence Chapter 12 – The Mature Adult		
7	2/21/24	Chapter 13 – Food Management Chapter 14 – Nutrient Delivery		
8	2/28/24	EXAM 2 (Ch.9-14) Chapter 15 – Interactions: Food/Nutrients vs Medications/Supplements		
9	3/6/24	<i>SPRING BREAK</i>		
10	3/13/24	Chapter 16 – Weight Management Chapter 17 – Diet in Diabetes Mellitus and Hypoglycemia	#3-Healthy Eating/Weight	A
11	3/20/24	Chapter 18 – Diet in Cardiovascular Disease Chapter 19 – Diet in Renal Disease		
12	3/27/24	EXAM 3 (Ch. 15-19) Chapter 20 – Diet in Digestive Diseases	#4-Physical Activity	
13	4/3/24	Chapter 21 – Diet and Cancer Chapter 22 – Nutrition in Critical Care PERSONAL HEALTH PROMOTION PLAN DUE		
14	4/10/24	Chapter 23 – Diet in HIV and AIDS Chapter 24 – Nutritional Care of the Terminally Ill	#5-Rest & Sleep	B
15	4/17/24	EXAM 4 (Ch.20-24) ATI MASTERY EXAM		
16	4/25/24	FINAL EXAM		

Academic Integrity

The faculty of Reinhardt University BSN Program affirms the highest standards of honesty. Students are expected to follow guidelines in the University Student Handbook, Academic Catalogue, as well as the BSN Program Handbook. Cheating and plagiarism will not be tolerated. All students are expected to adhere to the highest standards of academic integrity, and to abide by the Reinhardt Honor Code:

Reinhardt University is a community of learners committed to the integration of faith and learning in the education of the whole person. As a partnership of students, faculty, and staff, we are dedicated to intellectual inquiry, academic freedom, and moral development. We are devoted to the principles of integrity, honesty, and individual responsibility. Therefore, in all our personal and academic endeavors, we will strive to represent our institution with integrity, purpose, and pride; demonstrate honest behavior and expect honesty from others; and accept responsibility for our own words and actions.

As a student in Reinhardt University school of nursing, I also pledge that all assignments, quizzes, examinations, papers, projects, lab work, simulations will be my own work, I will not participate in academic dishonesty or plagiarize, and all clinical care that I provide to my patients will not be in violation of this pledge. All nursing students are expected to be familiar with the Reinhardt policy on academic dishonesty stated in the University Catalog and in the Student Handbook. Plagiarism (using the ideas and phrases of others without crediting them, therefore claiming those ideas and phrases as your own) will not be tolerated in this program or on this campus. To avoid such academic dishonesty, you must use a citation (footnote or in text) for all ideas drawn from your reading and research, including research in encyclopedias and online, even when you have restated those ideas in your own words.

Academic misconduct is taken very seriously. It can be represented by such acts as:

- Plagiarism
- Cheating
- Unethical use or sharing of texts and teaching-learning resources including, but not limited to, those purchased by another
- To give or receive information *before, during or after examinations* – including previous test information, copying actual exams or quizzes, or possession and use of unauthorized instructor materials (test banks associated with texts utilized in the course)
- To turn in assignments which are the result of another's work (fabrication)
- Acting in a disrespectful manner toward patients, visitors, faculty or clinical faculty
- Falsifying clinical documents
- Falsifying the medical record
- Duplicating and disbursing in any format copyrighted national certification exam questions
- Sharing or discussing information or details regarding simulation scenarios/clinical experiences that represent a HIPAA violation

Academic dishonesty will result in a grade of zero for the particular course assignment or examination and pending review of the Dean, failure of the course and dismissal from Reinhardt University.

Communication

Regular feedback about course concerns from students to faculty is welcomed. Any concerns related to a specific faculty member should first be discussed with the faculty member involved. If the situation remains unresolved, the next approach is to meet with the program coordinator followed by a meeting with the Dean of the School of Nursing.

All professional cultures designate appropriate ways to communicate formally and informally via technology. For the nursing program, formal communication is appropriate through your RU email account. Formal communication is anything directly related to assignments, individual meetings, absences, grades, technical issues with the learning management systems (LMS), etc. Messages should contain clear questions, include any pertinent details, and be specific if a response is needed within a certain time frame. Please note that abbreviations such as BTW, GRB, UR are only appropriate when using media that have a character limit. Informal communication may be appropriate through social media. If you have any concerns about appropriateness of communications, please contact your professor.

RU email is the preferred method of professor/student communication.

When emailing course faculty:

- Email communication should be from RU email accounts only. Faculty will only respond to emails sent from the RU email system.
- Start the subject line of your email with the course number followed by a few words about the substance of the email. (For example: NUR307: Request a private meeting). Emails with a class number and a subject in the subject line are responded to first.
- Sign all email messages with your first and last name. This is appropriate, professional etiquette. Your email address may only show your student number.

To receive a positive professional evaluation, all written communication should be formatted appropriately, written in complete sentences, free of spelling and grammatical errors, and include the required subject line. Emails that are sent from personal accounts (gmail, etc.) or do not have the class number and subject will likely be filtered, and as a result, may not be received by the instructor. Communication should also be in compliance with HIPAA and FERPA regulations.

Discussion/Chat Sessions

- Review the discussion/chat threads thoroughly before entering the discussion/chat session.
- Try to maintain discussion threads by using the “reply” button rather than starting a new topic.
- Do not make insulting or inflammatory statements to other members.
- Be respectful of others’ ideas.
- Be patient and read the comments of other group members thoroughly before entering your remarks.
- Be cooperative with others in completing assigned tasks.
- Be positive and constructive in discussions/chats.
- Respond in a thoughtful and timely manner.
- Do not use sarcasm
- Do not use all capital letters for emphasis. This is interpreted as shouting and is not appropriate etiquette.

Syllabus Modification

This syllabus is to provide guidance. It may be modified by the faculty as necessary. The student is responsible for checking email accounts on a routine basis.

ADA Accommodations

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. This legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. Reinhardt University is committed to providing reasonable accommodations for all persons with disabilities. Therefore, if you are seeking classroom accommodations under the Americans with Disabilities Act, you are required to register with the **Academic Support Office (ASO)**. ASO is located in the basement of Lawson Building. To receive academic accommodations for this class, please obtain the proper ASO letters. More information is available on the RU website at <https://www.reinhardt.edu/academic-resources/academic-support-office/aso-programs-services/>.

Center for student success

The Center for Student Success (CSS) is located in Hill Freeman Library Room 313. **CSS offers free peer and faculty tutoring.** For more information, visit this link [Statement of Assistance through the CSS Spring 2024](#)

Library/virtual library

Reinhardt University Library is available to all students enrolled in the BSN Program. Links to library materials such as electronic journals, databases, interlibrary loans, digital reserves, dictionaries, encyclopedias, maps, and librarian support may be found on the RU website at <https://www.reinhardt.edu/library/about/news/>

Academic calendar

Please review the Academic Calendar, found on the university website (<https://www.reinhardt.edu/wp-content/uploads/2023/03/2023-24-Reinhardt-University-Academic-Calendar.pdf>) for the last date to drop the course or other registration issues.

Counseling services

If you are experiencing difficulty of any type, please understand that the Reinhardt University faculty care about you as an individual. You may speak with any of us at any time. In addition, if you are having personal, familial, or educational, difficulties and would like to speak with a trained counselor, students may schedule a counseling appointment. More information can be found on the RU website at <https://www.reinhardt.edu/student-life/student-services-resources/counseling-services/>

Assistance with SON technology

Reinhardt University (RU) provides technical assistance through the “Help Desk”. Laptops must have wireless connectivity and be in good working condition. In addition, it is the student’s responsibility to contact tech support for resources and assistance.

Reinhardt University Student Handbook

Accessible on the RU website: <https://www.reinhardt.edu/wp-content/uploads/2022/08/2022-2023-Reinhardt-University-Student-Handbook-Revised-8.1.2022.pdf>

Cauble School of Nursing and Health Sciences Handbook

Accessible on the Cauble School of Nursing and Health Sciences website: <https://www.reinhardt.edu/wp-content/uploads/2023/07/NursingStudentHandbookFall2023.pdf>

“Reinhardt University is committed to providing a safe environment for its students, visitors, faculty and staff. Long-established policies, approved by Reinhardt's Board of Trustees, prohibit possession of firearms on property owned by the University.”
